

## Volunteer and Homeowner COVID-19 Agreement Form

**Rebuilding Together East Bay-North** prioritizes the health and safety of homeowners, contractors, volunteers and staff.

At the outset of the COVID-19 outbreak, operations were initially suspended. Because the work we do addresses critical needs in our community, it is important to resume our services. Because we serve a vulnerable population and with a priority on their safety, we are moving forward with the following procedures based on guidelines from the CDC and our local health department.

- Homeowners will notify RTEBN immediately if they or any other resident has tested positive or has been in contact with someone who tested positive for COVID-19.
- RTEBN staff and contractors will limit physical contact with homeowners to the maximum extent possible.
  - Conversations will be limited to electronic or phone conversations to the extent possible.
  - Should in person conversations be necessary, those conversation will take place at a minimum of six feet distance to the extent possible and face mask will be worn by all parties.
  - RTEBN staff, contractors and homeowners are each responsible for fully sanitizing and cleaning any surface that they have touched or will touch before another party comes into contact with the same surface.
  - RTEBN staff and contractors will cancel scheduled work if they are symptomatic or believe they have been in contact with someone who has COVID-19.
  - When homeowner signatures are required, RTEBN staff and contractors will attempt to obtain electronic signatures. If that is not possible, documents to be signed will be delivered to an agreed-upon location that requires no physical contact.
  - Homeowners will return signed documents to the same location.
- RTEBN and its contractors will seek to follow all applicable and relevant government recommendations to limit the spread of coronavirus and may update the above procedures at any time based on new guidance or instructions from experts and authorities. Attached is a list of everyday precautions.

I have read and understand these procedures, and agree to comply.

## **Take everyday precautions while volunteering**

- Avoid close contact with people who are sick.
- Take everyday preventive actions:
  - Clean your hands often, especially if you aren't wearing gloves
  - Wear a mask whenever you leave your home; even a heavy duty cotton mask will reduce the water vapor droplets from your mouth when you talk
  - Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing, or having been in a public place.
  - If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol.
  - To the extent possible, avoid touching high-touch surfaces in public places – elevator buttons, door handles, handrails, handshaking with people, etc. Use a tissue or your sleeve to cover your hand or finger if you must touch something.
  - Wash your hands after touching surfaces in public places.
  - Avoid touching your face, nose, eyes, etc.
  - Clean and disinfect your home to remove germs: practice routine cleaning of frequently touched surfaces (for example: tables, doorknobs, light switches, handles, desks, toilets, faucets, sinks & cell phones)
  - Avoid crowds, especially in poorly ventilated spaces, or space with low ceilings. Your risk of exposure to respiratory viruses like COVID-19 may increase in crowded, closed-in settings with little air circulation if there are people in the crowd who are sick.
  - Avoid all non-essential travel including plane trips, and especially avoid embarking on cruise ships.
